

MOTOR DRIVEN SIREN

ACOUSTIC

Acoustic Signals > AS300M Series

Product overview

The AS300M is a powerful motor driven siren which emits a very high sound output. Designed for surface mounting, it has a separate mounting bracket which may be secured in position first to allow easy installation

The AS300M is ideal for security, fire and general industrial warning applications where a higher output is required such as in areas of high background noise.

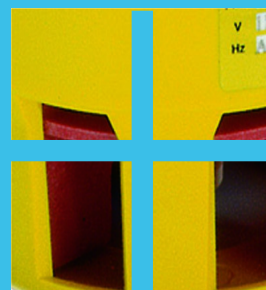

Features

- Continuous Signal
- High Output Siren Sound
- 127dB at 1m
- Weatherproof Construction
- Easy to install
