Profile rail cutting

Profile shear 2671

Features

- For cutting and punching of steel and aluminium profile rails up to 35 x 15 mm.
- Waste-free cutting with minimum operation effort.
- With hand lever or hydraulically operated.

Product Description

- · Mounted guide rail
- · Easily exchangeable shear plates
- Punch with fixed stop (9 mm spacing) or with adjustable stop

Technical Data

Further technical information → page 39

Scope of Delivery

- · Profile shear
- Length stop 1 m
- · Guides for cutting and punching

Note

The hydraulic profile shear can be combined with hydraulic pump 0220-2611- 00-00 and 2611-0380-00-00.

Description

Description	Continuously adjustable	Order No.	
For variable punching of profile rails	25 - 500 mm	2671-0700-01-00	
For variable puncting of profile rails	25 - 1000 mm	2671-0700-03-00	

Shear plates G32

Description	Order No.
For cutting mounting rails G32 (32 x 15 x 1.5 mm)	
according to DIN EN 60715 standard.	2671-7400-01-00
Left and right feed for double turnaround time.	

Shear plates 35x15x1.5

Description	Order No.
For cutting mounting rails measuring $35 \times 15 \times 1.5 \text{ mm}$ according to DIN EN 60715 standard. Left and right feed for double turnaround time.	2671-7400-02-00

Shear plates 35x7.5

Description	Order No.
For cutting mounting rails measuring 35 x 7.5 x 1 mm according to DIN EN 60715 standard. Left and right feed for double turnaround time.	2671-7400-03-00
